

A: What a Pervasive ODBC Client Interface is, and what it does, is explained in the Pervasive ODBC documentation. However, if you are not on a Pervasive version 11 system (which is, apparently, the one you're using), then you need to install a 32-bit ODBC driver from Pervasive, download it here, extract it, and install it. (That's the 32-bit ODBC version of the Pervasive 11 software, and that will install a 32-bit ODBC driver on Linux and macOS.) You will then be able to use the ODBC driver and the tool you are using to connect to the database.

```
@charset "UTF-8"; /// Creates a new button /// @param
{List} $list [list] - list of list items /// @param {String} $type [button] - `button`, `reset`, `submit`, or `small` /// @param
{Number} $width [30] - width /// @param {Number} $height [30] - height /// @param {Number} $line-height [0] - line-
height /// @param {Number} $font-size [0] - font size /// @param {Number} $font-family [sans-serif] - font family ///
@param {Number} $border-radius [0] - border radius /// @param {Number} $padding [5] - padding /// @param {Number}

Image with no alt text. Image with no alt text. Learn about the ODBC Driver for Pervasive and other Pervasive ODBC products you can download for your computer. For Windows 7 or Windows Vista: (28.19 KB) Download the free Pervasive ODBC Client Interface Driver from the Downloads page of the Pervasive website. For Other Operating Systems: (4.62 MB) Download the free Pervasive ODBC Client Interface Driver from the Downloads page of the Pervasive website. Download and Install Pervasive ODBC Client Interface for Windows 7. The installation of the driver may fail if the system does not have the ODBC Driver Manager (ODBCDMO). Or if there is not an earlier installed ODBC client interface on the same machine. You may need to have network access to download the ODBC Driver for Pervasive. When starting the ODBC driver interface, you may see a message that says the connection could not be established because the specified data source name (DSN) contains an architecture mismatch. This may be caused by the system incorrectly loading a 32 bit ODBC driver or having the wrong 32 bit ODBC client interface installed. The 32 bit ODBC Drivers are installed along with the 64 bit ODBC client interface driver. Download and Install Pervasive ODBC Client Interface for Windows. When the 3da54e8ca3
